Although this product was designed to be safe, failing to use it correctly may result in an accident. To ensure safety, observe all warnings and cautions while using the product.

### Safety precautions

#### Cautions for the product

- Do not use the product near medical equipment. Radio waves may affect cardiac pacemakers and medical electronic equipment. Do not use the product inside medical facilities.
- When using the product in aircraft, follow airline instructions.
- Do not use the product near automatic control devices such as automatic doors and fire alarms. Radio waves may affect electronic equipment and cause accidents due to malfunction.
- Do not disassemble, modify or attempt to repair the product to avoid electric shock, malfunction or fire.
- Do not subject the product to strong impact to avoid electric shock, malfunction or fire.
- Do not handle the product with wet hands to avoid electric shock or injury.
- Disconnect the product from a device if the product begins to malfunction, producing smoke, odor, heat, unwanted noise or showing other signs of damage.
- Do not use the product in a wet or humid area. Do not use the product with a wet face. It may cause an electric shock.

RF Exposure Statement  
This transmitter must not be located or operated in conjunction with any other antenna or transmitter used in other systems. This device complies with FCC Radio Frequency (RF) Exposure Guidelines. This equipment has very low levels of RF energy. It is deemed to comply without testing of specific absorption rate (SAR).

For customers in Canada  
IC Statement  
CAN ICES-3 (B)/NMB-3(B)  
This device complies with INDUSTRY CANADA R.S.S. 247.  
Operation is subject to the following conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference which may cause undesired operation.

- Do not use the product for a long time. The equivalent isotropically radiated power (e.i.r.p.) is not more than that necessary for successful communication. This device complies with RSS-102 radiation exposure limits set forth for an uncontrolled environment.
- When charging, make sure to use the included USB charging cable.
- Do not charge with devices that have quick-charge functionality (with a voltage of 5 or more). Doing so may cause the product to malfunction.
- To prevent damage to your hearing, do not raise the volume too high. Listening to loud sound for an extended period may cause temporary or permanent hearing loss.
- Do not use the product with a cloth to avoid fire or injury by overheating.
- Follow applicable laws regarding mobile phone and headphone use if using headphones while driving.
- When using the product while driving the ability to hear ambient sound presents a serious risk (such as at railroad crossings, train stations, and construction sites).
- The product effectively shields external sound, so you may not hear sound around you clearly while wearing the product. Adjust the volume to a level where you can still hear background sound and monitor the area around you while listening to music.
- Do not use the product in a wet or humid area.
- When charging, make sure to use the included USB charging cable.
